

# Gas Main Construction

Colorado Springs Utilities will begin lowering a gas main along W. Colorado Ave., as part of the Westside Ave. Action Plan. Infrastructure work will be completed in phases and in coordination with water pipe projects. The gas construction is considered part of Phase Two overall project construction for the Westside Ave. Action Plan.

## What Can You Expect?

- Construction crews will trench and lower the gas main on the south side of W. Colorado Ave., starting at a point slightly east of Ridge Rd., and ending at a point slightly east of the intersection of W. Colorado Ave. and S. 32<sup>nd</sup> St.
- Crews are lowering and replacing the gas mains with four-inch Polyvinyl chloride (PVC) plastic pipes.
- A few gas service lines to homes and/or businesses might be replaced and crews will work with customers to reconnect service.
- Work will begin the week of May 21.
- Construction could take up to one month to complete.
- Barricades will direct traffic when necessary.

**Please Note:** All Springs Utilities crew members carry photo identification. If anyone comes to your door without proper identification, contact customer service at **448-4800**.
